***AUTOMATIC MONOBLOCS - CAPSULE DISPENSING,  
CAPSULING & SELF-ADHESIVE LABELING  
6005 - 6013 - 6014 - 6023 - 6024 - 6043 - 6044***

*The distinguishing feature of this family of monoblocs is the number of capsuling heads: the 6005-6013-6014 have one, the 6023-6024 have two, and the 6043-6044 have one heat-shrinking head and four sleeker heads. The machines are controlled by PLC and Touch Screen, making them intuitive and easy to use.*
