

**WASHING & GRINDING UNIT**  
SERIES KWEM

## ADVANTAGES

- The machine is made entirely of stainless steel
- Plastic conveyor belt with continuous speed setting
- Operation panel on the right or left as per customer requirements
- Fully automatic operation
- 3-pole sensor in the mash box
- Central floor drain for the washing water

**KWEM 2000**

## WORKMANSHIP

Together with the mounted control box and the integrated sorting table, the plug-in complete assembly facilitates relaxed working conditions.

A combinable overrun and drain provides a central draining of the wash water. The continuous speed setting guarantees maximum control during the processing.

## WASHING & GRINDING UNIT

KWEM 1000 / 2000 / 3000 / 5500

In the washing basin the fruit undergoes an intensive cleaning. Afterwards it is transferred upwards and is washed again with water spray nozzles. Then it is crushed with the directly attached grinder and is forwarded into the dosing hopper of the belt press.
